Begin to count backwards in familiar contexts such as number rhymes or stories

Five fat sausages frying in a pan ...

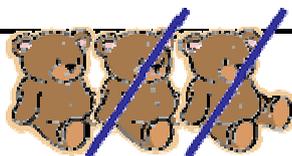

Ten green bottles hanging on the wall ...

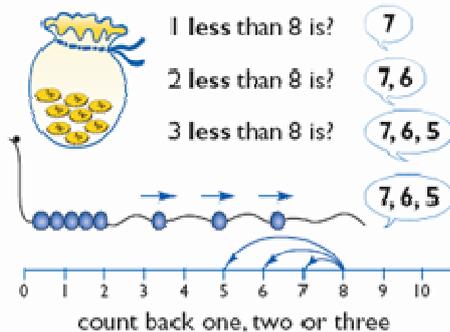

Continue the count back in ones from any given number

Begin to relate subtraction to 'taking away'

Three teddies **take away** two teddies leaves one teddy

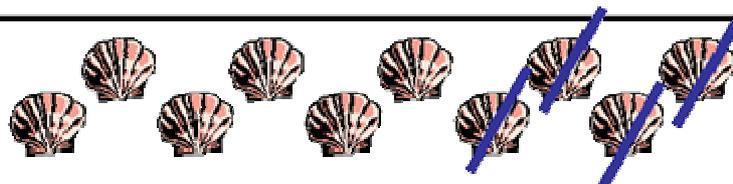

Find one less than a number

Count back in tens

If I **take away** four shells there are six left

Count backwards along a number line to 'take away'

Begin to use the – and = signs to record mental calculations in a number sentence

Maria had six sweets and she ate four. How many did she have left?

$$6 - 4 = 2$$

$$6 + ? = 10$$

$$10 - 6 = ?$$

$$? + 6 = 10$$

$$10 - 4 = 6$$

$$20 = 12 + 8$$

$$8 + 12 = 20$$

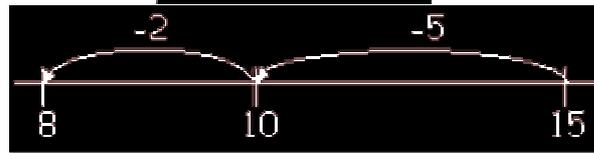

$$20 - 8 = 12$$

$$20 - 12 = 8$$

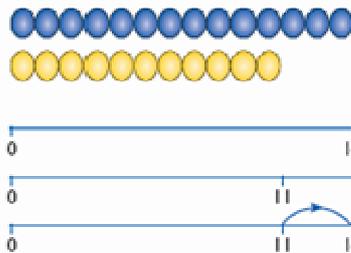

Know by heart subtraction facts for numbers up to 10 and 20

Subtract single digit numbers often bridging through 10

$$15 - 7 = 8$$

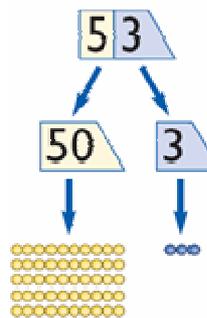

The difference is?

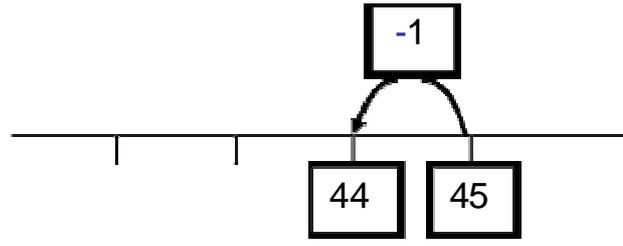

The difference between 11 and 14 is 3.
 $14 - 11 = 3$
 $11 + \square = 14$

Begin to find the difference by counting up from the smallest number

Begin to partition numbers in order to take away

Subtract 1 from a two-digit number

$$45 - 1$$

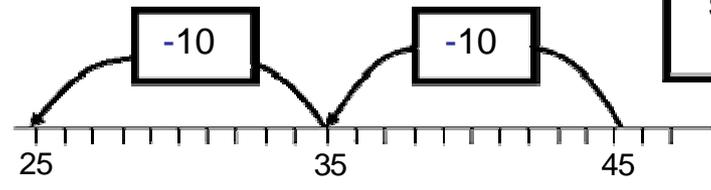

Subtract 10 from a two-digit number

$$45 - 10$$

81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Subtract multiples of 10 from any number

$$45 - 20$$

Partition the number to be subtracted (no exchanging)

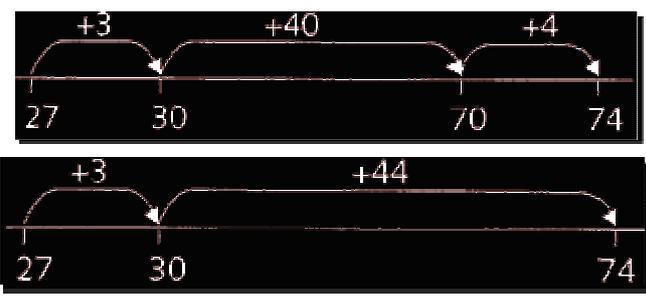

43 - 20 = 23

23 - 3 = 20

Decide whether to count on or count back

$$74 - 27 = 47$$

Now what's the answer?

Partitioning number to be subtracted – with exchanging (links to counting back on number line)

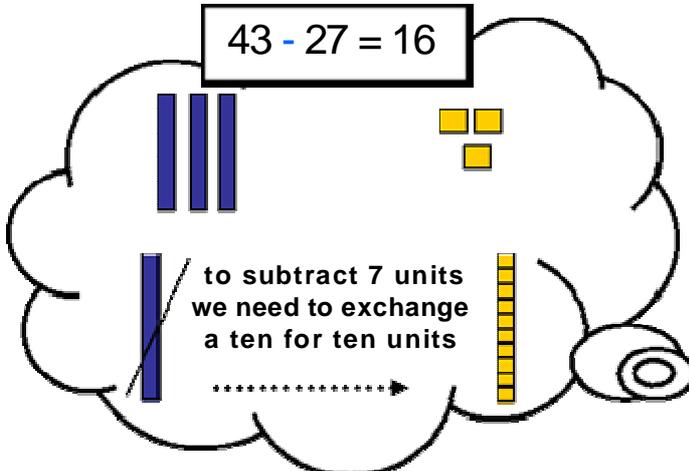

$$43 - 27 = 16$$

$$43 - 20 = 23$$

$$43 - 20 = 23$$

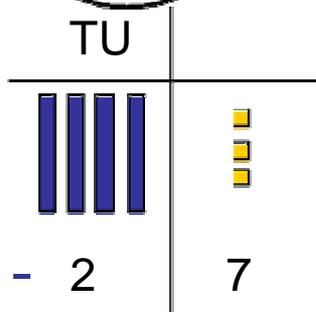

$$23 - 7 = 16$$

$$43 - 27 = 16$$

Expanded method

It is important that the children have a good understanding of place value and partitioning using concrete resources and visual images to support calculations. The expanded method enables children to see what happens to numbers in the standard written method.

$$\begin{array}{r} 30 \quad 40 \quad + \quad 10 + 3 \\ - 20 \quad + \quad 7 \\ \hline 10 \quad + \quad 6 \end{array}$$

Standard written method

The previous stages reinforce what happens to numbers when they are subtracted using more formal written methods. It is important that the children have a good understanding of place value and partitioning.

$$\begin{array}{r} 3 \quad 4 \quad 1 \quad 3 \\ - 2 \quad 7 \\ \hline 1 \quad 6 \end{array}$$
