Holy Cross Federation Schools

Monday 18th September

Dear Parent/ Carers

There are lots of activities that we do in school that involve children being in contact with different foods or materials. It is really important that we are aware if any of the children have allergies to anything, that way we can put in place alternative resourcing, or purchase additional food supplies so that no one is excluded from learning, or celebrating events, because of their allergy. I do not want to be in a situation where a child reacts to something resulting in the need for further medical attention, I would much rather put in place the preventative measures needed first.

I know that many of you are good at letting the office know about this, but in order to ensure we have the most up to date information please could you return the slip below, even if your child does not have any allergies. We can then ensure that all the relevant information is passed to all staff working in school.

If your child is an Asthma sufferer and takes an inhaler even if it's as a when needed, please could the enclosed forms be completed and returned.

Permission will be needed for us to administer all medication even if it's just for a cold. Permission forms can be requested from the school's office.

Thank you for your cooperation with this,

Mrs Zeil
Headteacher

Child's name _____ Class _____

My child has no allergies _____

My child has allergies to _____

What reaction occurs _____

How is it treated _____

Asthma card/plan enclosed Yes/No

Signed _____

Date _____
